| TIME         | SESSION                                 | TOPIC                                                        |
|--------------|-----------------------------------------|--------------------------------------------------------------|
| 08:30-10:00  | <b>Symposium on Pulmonology</b>         |                                                              |
|              | Lecture                                 | Pointers of sleep disorders in office practice               |
|              | Lecture                                 | Current updates in bronchiolitis management                  |
|              | Panel Discussion                        | Approach to Non resolving pneumonia                          |
|              | Discussion                              |                                                              |
| 10:00-11:30  | <b>Symposium on Infectious diseases</b> |                                                              |
|              | Lecture                                 | How to interpret culture reports wisely?                     |
|              | Lecture                                 | Complications in Dengue- Usual and unusual                   |
|              | Panel Discussion                        | Antimicrobial stewardship in office practice                 |
|              | Discussion                              |                                                              |
| 11:30-12:30  | <b>Mixed bag</b>                        |                                                              |
|              | Lecture                                 | Approach to pediatric emergencies in office practice         |
|              | Lecture                                 | Navigating the medico-legal challenges in pediatric practice |
|              | Lecture                                 | Scope of Umbilical blood transfusion....Neonate & Beyond     |
| 12:30-01:30  | <b>UNICEF</b>                           |                                                              |
| 01:30-02:00  | <b>FREE PAPER</b>                       |                                                              |
| 02:00-03:30  | <b>Symposium on Cardiology</b>          |                                                              |
|              | Lecture                                 | Kawasaki disease: Diagnosis and management updates           |
|              | Lecture                                 | Interventional Cardiology                                    |
|              | Panel Discussion                        | Common CHD in office practice                                |
|              | Discussion                              |                                                              |
| 03:30- 05:00 | <b>Symposium on Gastroenterology</b>    |                                                              |
|              | Lecture                                 | Celiac disease: Not uncommon but commonly missed             |
|              | Lecture                                 | IBD: What a general pediatrician must know                   |
|              | Panel Discussion                        | Approach to a child with Constipation                        |
|              | Discussion                              |                                                              |

| TIME         | SESSION                                               | TOPIC                                                                |
|--------------|-------------------------------------------------------|----------------------------------------------------------------------|
| 08:30-10:00  | <b>Symposium on Intensive care</b>                    |                                                                      |
|              | Lecture                                               | Current septic shock guidelines                                      |
|              | Lecture                                               | Managing Hospital Acquired infection in PICU                         |
|              | Panel Discussion                                      | Pediatric ARDS                                                       |
|              | Discussion                                            |                                                                      |
| 10:00-11:30  | <b>Symposium on Hemato-oncology</b>                   |                                                                      |
|              | Lecture                                               | Pediatric Bone Marrow Transplant - Beyond hemoglobinopathies         |
|              | Lecture                                               | Approach to Fever with cytopenia                                     |
|              | Panel Discussion                                      | Anemias in office practice                                           |
|              | Discussion                                            |                                                                      |
| 11:30-12:30  | <b>MIXED BAG</b>                                      |                                                                      |
|              | Lecture                                               | Muco-Ciliary clearance therapy in pediatrics                         |
|              | Lecture                                               | From IQ to EQ- Nurturing emotional intelligence in adolescents       |
|              | Lecture                                               | Immunotherapy in allergic disorder                                   |
| 12:30-01:30  | <b>JN POHOWALLA - AWARD PAPERS</b>                    |                                                                      |
| 01:30-02:00  | <b>FREE PAPER</b>                                     |                                                                      |
| 02:00-03:30  | <b>NCD Conference: Symposium on Childhood obesity</b> |                                                                      |
|              | Lecture                                               | Childhood obesity and interpretation of growth charts                |
|              | Lecture                                               | Bone health in the era of sedentary lifestyles and childhood obesity |
|              | Panel Discussion                                      | Childhood obesity: From prevention to precision management           |
|              | Discussion                                            |                                                                      |
| 03:30- 05:00 | <b>Symposium on Neurology</b>                         |                                                                      |
|              | Lecture                                               | Seizure mimics                                                       |
|              | Lecture                                               | Approach to headache in office practice                              |
|              | Panel Discussion                                      | AES                                                                  |
|              | Discussion                                            |                                                                      |

| TIME        | SESSION                                    | TOPIC                                   |
|-------------|--------------------------------------------|-----------------------------------------|
| 08:30-10:00 | <b>Symposium on Rheumatology</b>           |                                         |
|             | Lecture                                    | Pattern recognition a clue to JIA       |
|             | Lecture                                    | Inborn errors of Immunity: Not uncommon |
|             | Panel Discussion                           | Case Scenarios in SLE                   |
|             | Discussion                                 |                                         |
| 10:00-11:30 | <b>Symposium on TB</b>                     |                                         |
|             | Lecture                                    | Updated NTEP Guidelines: Birds eye view |
|             | Lecture                                    | Latent TB and TPT                       |
|             | Panel Discussion                           | Case files in Pediatric TB              |
|             | Discussion                                 |                                         |
| 11:30-12:30 | <b>LECTURE TBD</b>                         |                                         |
|             | Lecture                                    |                                         |
|             | Lecture                                    | TBD                                     |
|             | Lecture                                    |                                         |
| 12:30-01:30 | <b>AWARD PAPERS in HALL 3 DK Shrivasta</b> |                                         |
| 01:30-02:00 | <b>FREE PAPERS</b>                         |                                         |
| 02:00-03:30 | <b>Symposium on vaccinology</b>            |                                         |
|             | Lecture                                    | TBD                                     |
|             | Lecture                                    | TBD                                     |
|             | Panel Discussion                           | Vaccine dialogue                        |
|             | Discussion                                 |                                         |
| 03:30-05:00 | <b>FREE PAPER</b>                          |                                         |

| TIME          | SESSION                                    | TOPIC                                                                                  |
|---------------|--------------------------------------------|----------------------------------------------------------------------------------------|
| 08:30-10:00   | <b>Symposium on Pulmonolgy 2</b>           |                                                                                        |
|               | Lecture                                    | Empyema: Current Guidelines on diagnosis and management                                |
|               | Lecture                                    | Understanding Persistant Bacterial bronchitis                                          |
|               | Panel Discussion                           | GINA 2026 Guidelines: What a Practitioner must know?                                   |
|               | Discussion                                 |                                                                                        |
| 10:00-11:30   | <b>NCD Conference: Environment and NCD</b> |                                                                                        |
|               | Lecture                                    | Oral health and its link to systemic non-communicable diseases                         |
|               | Lecture                                    | TBD                                                                                    |
|               | Panel Discussion                           | Environmental and climate determinants of paediatric NCDS                              |
|               | Discussion                                 |                                                                                        |
| 011:30-1:00   | <b>DEVELOPMENTAL PEDIATRICS</b>            |                                                                                        |
|               | Lecture                                    | Developmental screening in office practice                                             |
|               | Lecture                                    | ASD: Identifying redflags                                                              |
|               | Panel Discussion                           | Mental health as a non-communicable disease: Integrating care into paediatric practice |
|               | Discussion                                 |                                                                                        |
